Scandia, MN 55073

WATERSHED:

Comfor Lake-
Forest Lake
Watershed

FUNDING PARTNERS

- Bush Foundation
- MPCA
- Carolyn Foundation
- MN DNR
- Landowner

BEST MANAGEMENT PRACTICES IMPLEMENTED

- Shoreline
Restoration

Two adjoining landowners on Bone Lake no longer wished to mow the steep hill leading down to the lake. They were looking for an ecological way to remedy the situation and chose to pursue having the area being restored with native trees, shrubs and vegetation. The area restored encompasses roughly 6400 sq ft of adjacent shore land. The area received several turf and vegetation treatments before mulch and native plantings were installed in the area. Due to some shoreline erosion, coconut fiber logs were installed along several areas of the shoreline and with approval of the DNR, aquatic plants were installed in and around the logs.
